

# I can save on tax thanks to my insurance

tax benefits

## I can reduce my tax and protect those dear to me

Cumulate tax benefits with our insurance solutions

### I deduct the premium from my home loan and savings plan

The State encourages home loan and savings plans by offering a tax relief.

**New** Beginning in 2017, the maximum deductible amount is doubled for those under 40 years of age.

Thanks to our partnership with **Wüstenrot**, our AXA advisors offer this type of contract.

Age	Max. deductible	
	Without spouse	With spouse
18 - 40 years*	1.344€	2.688€
> 40 years	672€	1.344€
Increase per child *	672€	672€

\* In the case of collective taxation under articles 3 and 3bis, the maximum deductible increased by € 1344 will be based on the age of the youngest adult subscriber. These maximum deductibles are increased by their own amount for the spouse / partner and for each child of the taxpayer's household.

### I deduct the single premium of my Remaining Due Balance Insurance

**Domia**, the ideal Remaining Due Balance Insurance for all loans. In addition to the death cover, you can also take out supplementary cover for accidents and disability.

#### Death, Accident, Disability insurance

**Domia** is a term death insurance that guarantees the payment to your bank of the remaining due balance if the insured dies.

Taxpayer	Charge up to age 30	Surcharge from age 31 to 49 for each year	Maximum deductible age 50 and older
No children	6.000€	480€	15.600€
With 1 child	7.200€	576€	18.720€
With 2 children	8.400€	672€	21.840€
For each supplementary child	+1.200€	+96€	+3.120€

The charge of the annual maximum deductible amount is always limited to the amount of the single premium (the annual premium is deductible according to article 111 L.I.T. - law on income tax).

If two «spouse-partners» are covered, in one or in two contracts, the aforementioned amounts are accumulated for each «spouse-partner» (the additional amount for each child only applies however for one of the parents).

### I deduct my other insurance premiums

#### Other insurances

(article 111 L.I.T. - law on income tax)

Luxembourg taxpayers may deduct the premiums for insurance that covers accidents, disability, illness/health and third-party liability (car and home), and which are paid to approved insurance companies in a member state of the European Union (premiums related to the following risks are not covered: damage, theft, fire, broken glass, casco, etc.)

#### Condition

- ▶ The policyholder and the insured must be the taxpayer or a person who is taxable with him (spouse or children).

Taxpayer	Annually deductible amount*	
	Without spouse	With spouse
No children	672€	1.344€
With 1 child	1.344€	2.016€
With 2 children	2.016€	2.688€
For each supplementary child	+672€	+672€

\*The annually deductible amount also includes interest expense on consumer loans

### Did you know?

69%

#### of your last net salary

This is the average amount of the pension that you will receive when you retire. (STATEC - 01.2014)

# today, I'm paying less tax tomorrow, I'll have a better pension

5 good reasons  
for a Life Insurance

## I'm planning for my retirement

Every year you can save on taxes while creating additional income for your retirement!

As a Luxembourg taxpayer, resident or cross-border commuter and depending on your age and the composition of your household, you can reduce your taxes by enjoying certain tax benefits.

Discover our products **Save for Life Pension** and **Alizea**.

### Retirement provision Insurance Scheme

(article IIIbis L.I.T. - law on income tax)

The favourable pension system in Luxembourg will evolve in the future, and the amount of your state pension will be much lower than your salary. The State is encouraging personal savings schemes so you have an additional pension when you retire. Taxpayers who subscribe to a retirement provision insurance scheme are entitled to a tax deduction from their taxable income for special expenditures.

#### Terms and Conditions

- ▶ Minimum duration of the contract: 10 years<sup>1</sup>.
- ▶ At the end of the contract, from the age of 60 and at the latest at age 75, savings are available either in the form of capital, life annuity or a combination of both.
- ▶ The accrued savings may be transferred to the beneficiary in the event of the death of the insured before the contract expires.
- ▶ Favorable taxation during and at the end of the contract: the part paid out as a lump sum is taxable at only half of the overall income tax rate; only half of the monthly life annuity is taxable.

<sup>1</sup> Early liquidation before the age of 60 or before the minimum contract duration of 10 years is reached, for reasons other than disability or serious illness of the policyholder, results in the deducted deposits being taxable at the tax rate of the policyholder's income.

### Save for Life Pension, a dynamic and flexible product

Combines safety and yields by investing:

- ▶ 50% of the capital via a guaranteed rate with profit sharing,
- ▶ 50% paid into the AXA Pension Fund to profit of the dynamism of the financial markets within a long-term investment horizon where the risk exposure decreases with the approach of retirement.

### Alizea, security comes first

- ▶ You want a solution without risks: Guaranteed interest rate on each premium net of fees, plus profit sharing.

## I want to protect those dear to me and prepare for the future

AXA offers several life, death and disability insurance products to protect those dear to you and/or create assets for the future:

### Life, Death, Disability Insurance

(article 111 L.I.T. - law on income tax)

**Serena**: the term death insurance that protects your family by providing additional cover.

**Equatoria**: the insurance that protects your family in the future by providing generous savings and a lump sum in the event of death.

**Juvena**: the insurance that helps you prepare the future of your children.

**Azzura**: the life insurance that combines profitability and security.

#### Conditions

- ▶ minimum duration of the contract: 10 years<sup>2</sup>

<sup>2</sup> Any actions, such as the redemption or transfer of an insurance contract, which result in the cancellation of the deductible nature, of the previously deducted premiums, shall give rise to an amending tax for the years in question.

Taxpayer	Annually deductible amount	
	Without spouse	With spouse
No children	672€	1.344€
With 1 child	1.344€	2.016€
With 2 children	2.016€	2.688€
For each supplementary child	+672€	+672€

1

Provide a **supplementary pension**

2

**Invest your money**

3

**Favourable tax treatment**

4

**Flexible investment**

5

**Transfer your assets**

## insurance subscription also possible for cross-border workers

The tax deductions apply to Luxembourg residents and «equivalent» non-residents.

Upon request, cross-border workers are equivalent to the residents if at least 90% of their income is realised in Luxembourg (50% for Belgian residents).

Deposits for life insurance contracts (long-term investment), but also contracts for third-party liability, are deductible from their tax up to a certain limit.
