Euro million

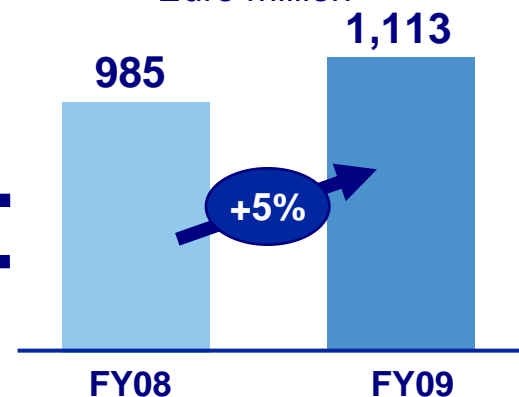

Change is on a comparable basis

NBV/APE Margin

New Business Value (NBV)

Euro million

YoY APE evolution

NBV margin evolution

- **+2.1pts business mix improvement** largely attributable to Variable Annuity repricing in the US and higher protection sales in the UK partially offset by lower unit-linked sales notably in France
- **-2.3pts expense deterioration**, mainly unit costs as a result of lower volumes (APE down 11%)
- **+2.0pts favorable market impacts**
- **+0.7pt other**

Life & Savings Underlying Earnings

Strong rebound primarily due to improved Variable Annuity hedging margin

L&S Underlying Earnings

In Euro million

Change is on a comparable basis

Key drivers of change in L&S Underlying Earnings

FY09 vs. FY08⁽¹⁾

<p>Margin on assets -10%: <i>Decrease in both unit-linked and General account margins</i></p>	€-0.5 billion
<p>Technical margin: <i>Improved Variable Annuity hedging margin</i></p>	€+1.9 billion
<p>Expenses +5%: <i>Acquisition expenses: +9%, due to increased DAC amortization as a result of increased technical margin</i> <i>Administrative expenses: +2%</i></p>	€-0.4 billion
<p>Tax and other</p>	€-0.2 billion
	€+0.8 billion

Focus on the US

Improvement in Underlying Earnings

- Improved Underlying Earnings mainly due to improved technical margin
- Slightly higher Assets Under Management: **up Euro 9 billion** (to Euro 99 billion)

Management Actions

- Variable annuity product restructuring including repricing and reduced benefits (response to volatile economic conditions and low interest rates)
- Elimination of no lapse protection rider in Universal Life offering
- Decline in sales: **-35%** vs. FY08
- Improved new business margins: **7.3%** (vs. 4.8% last year)

Focus on improved GMxB hedge margin

In Euro million (net of tax and DAC)	FY08	FY09
Basis	-247	-21
Volatility	-183	-127
Credit Spreads	-84	63
Interest rates & other	59	73
Total	-455	-12

2010 priorities and opportunities

- Expanding and diversifying the product portfolio:
 - Building distribution to deliver a broader range of products to a wider array of clients
 - Launch of Retirement Cornerstone in third-party channels
 - New Universal Life offering
- Optimizing the management of in-force business

Property & Casualty Underlying Earnings

Decreased profitability in an adverse market cycle

Policy loans	11	3%	10	2%
Total G/A and Bank Assets	390⁽³⁾	100%	403⁽³⁾	100%

– Changes in asset allocation –

- **Net inflows:** investment in government bonds and corporate bonds
- **Cash position:** decrease due to reinvestment in fixed income assets and impact from lower collateral on Variable Annuity hedges
- **Scope effect:** €5bn of Australia/NZ assets reclassified as held for sale in FY09

General Account invested assets

Resilient asset valuation

In 2H09, asset valuations:

- were stable for Real Estate and Private Equity
- increased for Equity, Corporate Bonds, ABS and Hedge Funds

Asset backed securities

- Asset values improvement: 69% of par at FY08, 66% at 1H09 and 70% at FY09

Real estate

- Stabilizing value since June 30, 2009, after a negative 6% mark to market in 1H09

Alternative investments

- Private Equity: stabilizing value since June 30, 2009, after a negative 13% mark to market in 1H09 (-15% for the year)
- Hedge Funds: positive performance

Recent market concern on government bonds

- Estimated total exposure net of policyholders' participation and tax: €4.0bn for Italy, €3.9bn for Spain, €0.9bn for Portugal, €0.6bn for Greece and €0.2bn for Ireland

Strong rebound in dividend & Embedded Value

Dividend per share

In Euro per share

Change is on a comparable basis

Dividend per share increased by 38%

Group EV per share

In Euro per share

Change is on a comparable basis

Group EV increased by 49%, driven by earnings and improved market conditions

* Or up 29% to Euro 19.4 Euro per share based on CFO Forum methodology (notably including non life intangibles and perpetual subordinated debt)

Table of contents

- 2009 performance: key highlights** **Page 4**
by Henri de Castries, Chairman of the Management Board
- 2009 financial performance: detailed presentation** **Page 6**
by Denis Duverne, Member of the Management Board
- 2010 outlook** **Page 23**
by Henri de Castries, Chairman of the Management Board

2010 environment

A combination of uncertainties and opportunities ...

An uncertain macroeconomic environment ...

- Stabilizing equity markets?
- Steepness and level of interest rates curve?
- Reduced but still high volatility?

... but favorable business trends for the insurance industry

- Increased needs for long term savings products
- Savings rates up in most developed countries
- P&C pricing cycle bottoming up

A moving regulatory framework...

- Solvency II principles are favorable to the industry
- Calibration still to be refined in a pragmatic way, but encouraging signs from the European Commission

... and insurers are not banks

- No distressed capital increase during the crisis for European pure insurance players
- Insurance assets are marked-to-market (no loan books)
- Increased understanding of insurance vs. banking business models

2010 environment

... where AXA has the means to differentiate

Leading brand

- #1 insurance brand worldwide
- Best ranking increase amongst financial service brands
- 3rd most valuable French brand across all sectors

Source: **Interbrand 2009**

Increased quality of service

No state support during the crisis

- AXA has maintained its independence throughout the last two crises
- AXA has all latitude to implement its strategy going forward

2010 priorities

Optimize margins in all business lines

Optimize margins in all business lines

Increase exposure to high growth markets

Adapt organization to support further growth

New Business margin

Life & Savings

14.5%

FY08

18.0%

FY09

2010 priorities

Continue to improve New Business margin while addressing sales momentum in the US

Combined Ratio

Property & Casualty

95.5%

FY08

99.0%

FY09

Improve Combined Ratio through management actions

Cost-to-income ratio

Asset Management

67.3%

FY08

78.4%

FY09

Enhance cost-to-income ratio while improving net flows at AllianceBernstein

2010 priorities

Increase exposure to high growth markets, notably in Asia & CEE

Optimize margins in all business lines

Increase exposure to high growth markets

Adapt organization to support further growth

High growth markets exposure

Update on announced transactions

AXA APH transaction

- Exclusivity with AMP lapsed on February 6, 2010
- Discussions ongoing with NAB
- Terms for the acquisition of Asian business unchanged. Timing uncertain.

Other transactions

- Minority buyout in Central & Eastern Europe
- Entering the Romanian market (Omniaisig)

* Minority buyout in Central & Eastern Europe and AXA APH transaction if successful

** Including 36.7% Reso Garantia share accounted in equity method

2010 priorities

Implement new organization to support further growth

Optimize margins in all business lines

Increase exposure to high growth markets

Adapt organization to support further growth

Continue to leverage the size of the Group through further convergence

Adapt governance to changing environment

- Unified Board structure reinforcing the roles and responsibilities of its members and streamlining decision-making process
- Henri de Castries to be President and CEO of the Group, Denis Duverne to join the Board as Deputy CEO
- Governance system with continued strong checks and balances, including a Lead Independent Director

Continue to attract talent

- Jacques de Vaucleroy (new head of NORCEE region) from ING
- Head of Distribution in Japan from Alico and CEO of Hong-Kong from AIG

Conclusion

Confirmation of AXA's business model

2009 financial performance

- Resilient activity
- Solid earnings
- Increased balance sheet strength
- Strong rebound in dividend and EV

AXA has the means to differentiate in the current environment

AXA's strengths

- Leading brand, increased quality of service, strong market positions and innovative products

2010 priorities

- Optimize margins in all business lines
- Increase exposure to high growth markets
- Implement new organization

Page 17

- (1) Return corresponds to adjusted earnings net of interest charges on perpetual debt. Equity corresponds to average shareholders' equity excluding perpetual debt and reserves related to change in fair value

Page 20

- (1) Mortgage loans & other include individual mortgage and loans (Euro 12 billion of which Euro 10 billion in Germany and Switzerland participating funds) and Agency Pools (Euro 2 billion)
(2) Mainly hedge funds and private equity
(3) Total invested assets referenced in page 51 of AXA's financial supplement are Euro 590 billion including notably Euro 155 billion of Unit-Linked contracts, Euro 18 billion of With profits accounts, Euro 7 billion of Holding & other net of cash (mainly related to third party assets consolidated in IFRS), Euro 2 billion derivatives mark-to-market related to balance sheet hedges, Euro 2 billion Paris Re ring fenced assets, Euro 1 billion non looked-through Mutual funds (mainly fixed income), Euro 1 billion of Asian assets

Definitions

2009 financial statements are subject to completion of audit procedures by AXA's independent auditors.

AXA's FY09 results have been prepared in accordance with IFRS and interpretations applicable and endorsed by the European Commission at December 31, 2009.

Adjusted earnings, underlying earnings, Life & Savings EEV, Group EV and NBV are non-GAAP measures and as such are not audited, may not be comparable to similarly titled measures reported by other companies and should be read together with our GAAP measures. Management uses these non-GAAP measures as key indicators of performance in assessing AXA's various businesses and believes that the presentation of these measures provides useful and important information to shareholders and investors as measures of AXA's financial performance. For a reconciliation of underlying and adjusted earnings to net income see pages 23 and 24 of this presentation.

AXA Life & Savings EEV consists of the following elements: (i) Life & Savings Adjusted Net Asset Value (ANAV) which represents tangible net assets. It is derived by aggregating the local regulatory (statutory) balance sheets of the life companies and reconciled with the Life & Savings IFRS shareholders' equity. (ii) Life & Savings Value of Inforce (VIF) which represents the discounted value of the local regulatory (statutory) profits projected over the entire future duration of existing liabilities.

Life & Savings New Business Value (NBV) is the value of the new business sold during the reporting period. The new business value includes both the initial cost (or strain) to sell new business and the future earnings and return of capital to the shareholder.

AXA Group EV is the sum of Life & Savings EEV and Shareholders' Equity of other businesses
