AXA to accelerate in Brazil through the acquisition of the P&C large commercial risks insurance subsidiary of SulAmérica

AXA announced today it has entered into an agreement with SulAmérica S.A. to acquire 100% of its Large Industrial and Commercial risks insurance subsidiary, SulAmérica Companhia de Seguros Gerais, for a total consideration of BRL 135 million¹ (or Euro 40 million²). The scope of the transaction includes Marine Hull, Marine Cargo and Property³. AXA expects to include the acquired operations within AXA Corporate Solutions Brazil and Latin America (“AXA CS Brazil”).

This transaction increases AXA’s exposure to the Brazilian market and its strong growth prospects. SulAmérica’s Large risks insurance business would bring significant positions in Marine (#2 player in Hull in Brazil⁴) and a strong footprint over Rio and South Brazil, thus complementing AXA CS Brazil’s current coverage of the Sao Paulo state and accelerating its development. Moreover, SulAmérica’s highly experienced underwriting teams would reinforce AXA’s local expertise and know-how.

SulAmérica’s Large Industrial and Commercial risks insurance operations have a successful growth track record in the Brazilian market, achieving a 12% average annual growth in terms of revenues over the past two years, reaching BRL 220 million in 2014 (or Euro 70 million⁵).

“This acquisition is a great accelerator for AXA Corporate Solutions in Brazil and confirms our long term aspiration to benefit from this fast-growing insurance market, in line with our Ambition AXA strategy. It also reinforces our ability to serve our global clients in Brazil, by leveraging both a strong platform and the skills of very reputable teams”, said Philippe Rocard, Chief Executive Officer of AXA Corporate Solutions.

Completion of the transaction is subject to customary closing conditions, including the receipt of regulatory and antitrust approval, and is expected to take place in the fourth quarter of 2015.
