PRESS RELEASE
November 8, 2007

9M07 ACTIVITY INDICATORS CONFIRM AXA’S SUSTAINED GROWTH MOMENTUM

LIFE & SAVINGS NEW BUSINESS VOLUME\(^1\) UP 26% (UP 10% ON A COMPARABLE BASIS)
LIFE & SAVINGS NEW BUSINESS VALUE\(^2\) UP 19% (UP 10% ON A COMPARABLE BASIS)
PROPERTY & CASUALTY REVENUES UP 30% (UP 4% ON A COMPARABLE BASIS)
ASSET MANAGEMENT REVENUES UP 16% (UP 23% ON A COMPARABLE BASIS)

- Life and Savings new business volume (APE)\(^1\) was up 26% to Euro 5,599 million, or 10% on a comparable basis\(^3\), reflecting AXA’s continued organic growth momentum. The main contributors to the growth were the United States, Australia/New Zealand and the United Kingdom while Japan remained negative. Unit-linked new business APE mix increased from 49.2% to 54.4%.

- Life and Savings new business value (NBV)\(^2\) was up 19% to Euro 1,250 million, or 10% on a comparable basis\(^3\), with a margin of 22.3%, in line\(^3\) with 9M06 as a result of positive business mix evolution offset by negative country mix evolution.

- Property & Casualty revenues increased by 30% to Euro 19,631 million, or 4% on a comparable basis\(^3\), mainly driven by the UK and fast growing markets (Turkey up 20%, Morocco up 19% and Asia up 10%) with strong Personal Motor and Household net new inflows reaching respectively 897,000 and 265,000 contracts. Personal lines were up 5% and Commercial lines up 2%.

- Asset Management revenues increased by 16% to Euro 3,621 million, or 23% on a comparable basis\(^3\), driven by higher average Assets under Management and business mix improvement. Both AllianceBernstein and AXA IM revenues grew at a strong double digit pace.

\(*\)
\(*\)

---

\(^1\) Annual Premium Equivalent (APE) represents 100% of new business regular premiums + 10% of new business single premiums. APE is Group share.
\(^2\) New Business Value (NBV) is Group share. NBV for both 9M06 and 9M07 were computed using profitability factors by products from year-end 2006. Economic and actuarial assumptions remained unchanged.
\(^3\) Changes on a comparable basis were calculated at constant FX and scope (notably Winterthur’s contribution was included in both 2006 and 2007 figures).
### Nine months ended
(Euro million, except when otherwise noted)

(a) Change on a comparable basis was calculated at constant FX and scope (notably Winterthur’s contribution was included in both 2006 and 2007 figures).
(b) Mainly due to continued appreciation of the Euro against US Dollar, Yen and CHF.
(c) Group share

“9M07 figures continued to demonstrate AXA’s sustained top line momentum while the integration of Winterthur continues to progress well”, said Henri de Castries, Chairman of the AXA Management Board.

“Our Life & Savings activities delivered once more double-digit growth. NBV margin improved compared to 1H07 notably as a result of an increased contribution from our Accumulator roll-out program.”

“The Property & Casualty revenues demonstrated good resilience in a competitive pricing environment, especially in retail lines.”

“Our Asset Management business continued to record strong performance but experienced in Q307 some net outflows from third party investors in low fee asset classes.”

*  *

Numbers herein have not been audited. APE and NBV are both in line with the Group’s EEV disclosure. They are non-GAAP measures, which Management uses as key indicators of performance in assessing AXA’s Life & Savings business and believes to provide useful and important information to shareholders and investors. IFRS revenues are available in Appendix 3 of this release.
LIFE & SAVINGS:

Life and Savings new business volume (APE) was up 26% to Euro 5,599 million, or 10% on a comparable basis, reflecting AXA’s continued organic growth momentum. The main contributors to the growth were the United States, Australia/New Zealand and the United Kingdom while Japan remained negative. Unit-linked new business APE mix increased from 49.2% to 54.4%.

Life and Savings new business value (NBV) was up 19% to Euro 1,250 million, or 10% on a comparable basis, with a margin of 22.3%, in line with 9M06 as a result of positive business mix evolution offset by negative country mix evolution.

The following comments are on a comparable basis.

The United States new business APE increased by 21% due to strong growth in sales of Variable Annuities (up 20%) as well as in Life products. Variable Annuities growth was primarily driven by the continued expansion in the third party distribution networks, especially independent financial advisory firms. The addition of product features also contributed to the increase in sales. NBV was up 13% to Euro 329 million with a NBV margin of 20.6%, down 1.6 points from 9M06 primarily due to increased sales of Universal Life to older clients. However, the NBV margin improved in 9M07 compared to 1H07 (20.6% at 9M07 vs. 19.6% at 1H07) largely due to change in product mix.

France new business APE increased by 3% to Euro 899 million driven by Group retirement (+57%) as well as Individual Life and Health (+10%). Individual Savings were down 5% despite strong sales in 3Q07. France NBV increased by 8% to Euro 148 million mainly driven by volumes and improved business mix which includes the contribution from the Accumulator-type product “Capital Ressources” launched in March 2007. Unit-linked share increased from 23% to 26%. NBV margin was up 0.7 points to 16.5%.

Japan new business APE decreased by 17% to Euro 431 million, in line with 1H07 trend as certain Term products no longer benefit from a favorable tax environment. The lower term product sales were partly offset by strong performance from medical and cancer product sales (+Euro 76 million) and the sales of US Dollar and Yen denominated variable annuity products (Euro 39 million). Japan NBV increased by 4% to Euro 299 million reflecting the company’s successful strategy to focus on more profitable medical products and to develop individual savings products. Unit linked share increased from 9% in 9M06 to 21% in 9M07 due to the increase in variable annuity sales.

In the United Kingdom, new business APE was up 18% to Euro 1,227 million due to a 13% growth in pension reflecting the strength of the combined AXA and Winterthur Individual pension offering and the impact of strong sales of offshore bonds in 1Q07 prior to a change in the tax environment of these products. Life Risk products business grew by 22% following improved penetration of individual protection products in the IFA market. The United Kingdom NBV increased by 30% to Euro 113 million as a result of higher volumes. NBV margin was up 0.8 points to 9.2%.

Germany new business APE was up 3% to Euro 313 million due to strong growth in Investment & Savings unit-linked products (especially “TwinStar” product range), partly offset by the negative impact of traditional Riester products (notably in Winterthur’s portfolio) which had benefited last year from strong inflows as a result of a 2006 fiscal incentive. Germany NBV recorded a sharp 22% growth to Euro 98 million as a result of improved business mix towards TwinStar products. NBV margin was up 4.8 points to 31.4%.

Switzerland new business APE was stable at Euro 187 million with Individual life up 9% and Group life down 2%. Unit-Linked share was up to 7% further to the launch of new products (including AXA comfort). Switzerland NBV was down 21% to Euro 38 million. NBV margin was 20%, down 5.5pts due to a large co-insurance agreement in Group life.

Belgium new business APE was up 8% to Euro 255 million due to individual life (+4% to Euro 234 million), mainly driven by non unit-linked products (largely Crest 40), and Group business (+70% to Euro 21 million). Belgium NBV was up 9% to Euro 102 million, largely driven by higher volumes. NBV margin was up 0.5 point to 40%.
Southern Europe new business APE decreased by 13% to Euro 110 million due to the non recurrence of single premiums in group business (down 37%) notably at Winterthur in 2006 as well as a decrease in individual segment. Southern Europe NBV decreased by 12% to Euro 15 million, in line with lower volumes. NBV margin was up 0.1 point to 13.3%.

Central & Eastern Europe new business APE was up 49% to Euro 74 million, mainly driven by Czech Republic (+72% to Euro 25 million) and Hungary (+48% to Euro 17 million), benefiting from strong Life unit-linked sales (+105% to Euro 27 million) and Pension Fund transfers from competitors (+28% to Euro 45 million). Central & Eastern Europe NBV was up 39% to Euro 18 million due to higher volumes and lower average margin as a result of a change in country mix. NBV margin remained very strong at 24.6%, down 1.8 points.

Australia/New-Zealand new business APE was up 26% to Euro 402 million mainly driven by continued strong inflows into mezzanine Global Equity Value fund and ipac wholesale products, in addition to strong personal superannuation flows into Summit & Generations platforms. Australia/New Zealand NBV was up 34% to Euro 38 million. The NBV margin increased from 8.8% to 9.3% due to scale benefits from the increasing funds under management in wealth management and improved business mix.

Hong Kong new business APE was up 16% to Euro 104 million, reflecting strong growth in individual unit-linked regular premiums and Group retirement sales as a result of the buoyant economic environment and encouraging results from the new Citibank bancassurance agreement (signed in July 2007). Hong Kong NBV was stable at Euro 53 million as the increase in sales was offset by a lower NBV margin following a reduced share of higher margin traditional products. NBV margin remained very strong at 50.6%, down 7.6 points.
PROPERTY & CASUALTY:

Property & Casualty revenues increased by 30% to Euro 19,631 million, or 4% on a comparable basis, mainly driven by the UK and fast growing markets (Turkey up 20%, Morocco up 19% and Asia up 10%) with strong Personal Motor and Household net new inflows reaching respectively 897,000 and 265,000 contracts.

Personal lines were up 5% and Commercial lines up 2%.

(a) Singapore, Hong Kong, Japan and Korea in 2007 (Change on a comparable basis excludes Kyobo Auto figures in both 2006 and 2007)

The following comments are on a comparable basis.

Personal lines (60% of P&C premiums) were up 5%.

Motor revenues grew by 6% mainly driven by (i) the UK & Ireland (+24%), largely as a result of the new business written through the Internet player Swiftcover, (ii) Southern Europe up 7%, following new product launches in 2006 and 2007 (mainly “Protezione at volante” in Italy and “Dynamic 2” in Spain) (iii) Turkey (up 23%), Asia (up 14%) and Morocco (up 8%) which confirmed their strong momentum, (iv) partly offset by lower growth in countries where competition was strong like France (+0%) and Switzerland (-1%).

Non-motor revenues increased by 5% mainly driven by (i) the UK & Ireland (+9%) mostly in health business, (ii) Southern Europe (+7%) due to Accident and Health products (iii) partly offset by France (+1%) and Germany (+2%).

Commercial lines (39% of P&C premiums) were up 2%.

Motor revenues were up 1%, as the growth in Germany (+6%) and France (+2%) was offset by Southern Europe (-8%) due to a lower contribution from former Winterthun fleet rental business further to a strategic decision and Belgium (-2%).

Non-motor revenues were up 2%, with France up 6% driven by Construction and Liability and the UK up 3% largely driven by Health, partly offset by Belgium (-3%) due to the non renewal of some less profitable contracts.

* * *
ASSET MANAGEMENT

Asset Management revenues increased by 16% to Euro 3,621 million, or 23% on a comparable basis, driven by higher average assets under management and business mix improvement. Both AllianceBernstein and AXA IM grew at a strong double digit pace.

AllianceBernstein revenues increased by +20% on a comparable basis largely due to higher base advisory fees (+26%, with +30% in institutional clients, +21% in retail clients and +25% in private clients) driven by higher average assets under management (+23%). Other revenues (mainly distribution fees, institutional research and performance fees) were up 7%.

AXA Investment Managers revenues increased by 28% on a comparable basis mainly driven by 24% higher average assets under management and favorable client and product mix evolution.

Assets Under Management were Euro 1,123 billion as of September 30, 2007 as a result of net inflows (Euro +25 billion), market appreciation (Euro +60 billion), impact of transfers from Winterthur (Euro +61 billion) partly offset by a strong negative exchange rate impact (Euro -51 billion).

AllianceBernstein net inflows of Euro 17 billion were strong across all client categories (Euro 6 billion from institutional clients, Euro 5 billion from retail and Euro 6 billion from private clients). Net inflows in 3Q07 were close to zero with net outflows in the institutional channel (largely low fee index mandates for approximately Euro 4 billion).

AXA Investment Managers net inflows of Euro 8 billion were driven by AXA’s Main funds (Euro 4 billion), Institutional clients (Euro 2 billion) and retail segment (Euro 1 billion). AXA IM recorded in 3Q07 third party net outflows of Euro 6 billion in certain lower margin funds (mainly institutional money market clients).

(a) Other transnational activities include AXA RE. The sale of AXA RE's business to Paris Re Holdings was completed on December 21, 2006. AXA RE's revenues, reported under "Other Transnational Activities" amounted to Euro 1,005 million at 09/30/2007 versus Euro 1,222 million at 09/30/2006. 100% of the business fronted on behalf of Paris Re was retroceded to Paris Re Holdings or its affiliates and therefore these amounts have been excluded from comparison on a comparable basis. The fronting was terminated on October 1st, 2007.
